GREEN LIGHT COMPANY ENTERS INTO EXCLUSIVE MANUFACTURING AND MARKETING PROGRAM FOR CEDARCIDE PRODUCTS

San Antonio, TX – October 1, 2003 – Green Light Company, a primary manufacturer of lawn & garden products, and CedarCide Industries have entered into an agreement for Green Light to manufacture and market the retail line of CedarCide products. The products include CedarCide pint concentrate, CedarCide ready-to-use (RTU) quart, CedarCide ready-to-spray (RTS) quart concentrate, and CedarCide Insect Repellent 4 oz. lotion. All CedarCide products are chemical-free, safe for children and pets, and long lasting. Since they are repellents, they do not kill beneficial insects such as bees, butterflies and ladybugs. CedarCide products are labeled for a variety of insect pests – including carpet beetles, chiggers, fleas, flies, gnats, lice, mosquitoes, no-see-ums, roaches, silverfish, and numerous other pests.

“This is a natural extension of our line of environmentally friendly products,” states Charles Browne, company president. “These products also help repel insects such as mosquitoes which have become a real public health issue”.

CedarCide’s “chemical-free” solutions are derived from Texas Red Cedar and provide an alternative to conventional pesticides. All CedarCide products are labeled for a wide variety of applications inside and outside the home. The products are effective on people, on pets, on vegetables, and in stables, and virtually anywhere insects are a problem.

The CedarCide pint concentrate has mixing instructions for use as a skin insect repellent as well as instructions for bathing dogs, cats, horses, and livestock. The product will quickly dry grease-free with a pleasant cedar aroma.

For information on the retail line of CedarCide products, as well as the entire line of Green Light products, contact the Green Light Company, P.O. Box 17985, San Antonio, Texas 78217-0985, phone: (210) 494-3481, or visit our website, www.greenlightco.com.
