GREEN LIGHT INTRODUCES ROOT STIMULATOR & STARTER SOLUTION RTS

San Antonio, TX - January 1, 2005 – *Root Stimulator & Starter Solution RTS* is now available from Green Light.

Spray **Green Light *Root Stimulator & Starter Solution RTS*** around the base of shrubs or trees and over the soil at planting time. To apply, thoroughly wet soil with water around plants and use as directed. Application should be repeated in 2 or 3-week intervals. It is also recommended on established plants to stimulate growth. One quart of ***Root Stimulator RTS*** will make 18 gallons of finished spray.

Green Light *Root Stimulator & Starter Solution RTS* contains a plant growth hormone which stimulates root growth and cultivates strong root structure. The 5-20-10 fertilizer analysis provides quick root establishment to promote healthy plants.

Green Light Company introduced the first ***Root Stimulator*** with a growth hormone to the consumer lawn and garden market in 1962.

Green Light *Root Stimulator & Starter Solution RTS* is available in quart size.

For more information on Green Light ***Root Stimulator & Starter Solution RTS***, as well as the entire line of Green Light products, contact the Green Light Company, P.O. Box 17985, San Antonio, Texas 78217-0985, or visit our website at www.greenlightco.com.

Green Light is a 100% employee-owned company. Electronic images are available upon request.
