

Insects Controlled

Green Light Conquest[®] Insecticide Concentrate

may be used for control of Chinch Bugs, Crickets, Sod Webworms, Ants, Fleas, Brown Dog Ticks, Earwigs, Mosquitoes, Cutworms, Grasshoppers, Chiggers, Pillbugs, Aphids, Bagworms, Mites, Eastern Tent Caterpillars, Spiders, Fall Webworms, Grasshoppers, Spittlebugs, Whiteflies, Leafhoppers, Mealybugs, Thrips, and others in lawns, ornamentals, trees, shrubs and flowers. Also may be used for the control of Clover Mites, Millipedes, Flies, Gnats, Mosquitoes, Scorpions, Roaches, and other nuisance insect pests outside of the home.

Benefits

Green Light Conquest[®] Insecticide Concentrate is a high-performance product specially designed to be used in very low concentrations, which translates to less impact on the environment. The active ingredient, Permethrin, has a long residual, providing many weeks of control.
